A briefing note on changes in Park Board Registration Software was circulated for information.

Britannia needs to ensure that the new software meets our needs.
1. All payments received by credit card will continue to be payable directly to Britannia. Currently all payments received by credit card ($50,000 to $75,000 weekly) is directed payable to Britannia for the credit card institution, Moneris, through RBC to the Britannia Vancity account within a few days. Any delays in payment will cause a cash flow issue.
2. Britannia must continue to have direct autonomy in program and fee for service scheduling, pricing, etc.
3. Ability to require that society memberships be purchased for everyone who registers for Britannia programs. This has been eroding as we do have the ability to impose a membership requirement for any Britannia programs registered online.
4. The data collected on our programs and memberships is available to the society for planning and evaluation processes which include email outreach, community consultation and customer satisfaction.
5. That the new financial data is compatible with our existing financial software and will not increase workload on our staff in the transfer.

Staff have been asked to do additional research about ActiveNet, reviewing user satisfaction, capability, pricing, etc. Cynthia will report back when she has more information.
b) Vancouver Public Library Board – New Branch Head, Yukiko Tosa started in January at Britannia. Yukiko is a former Britannia Graduate.

More than half the chaperone costs are being covered out of the chaperone’s own pockets; this shows the excitement.

  Provincial exams are done.
  Course calendars are up on the website.
  Teachers email addresses are up on the website.
  Next year there will be a shift to start times for a late start; we believe that this may be popular. Another school in the district is doing late start.

Three Britannia Secondary students are involved in the Vancouver GSA (Gay Straight Alliance). They have been invited to speak at a conference at the University of Saskatchewan. The students are fundraising in order to attend. $6,000 will cover the cost of airfare, all additional costs for lodging, food, ground transportation and sundry expenses.

Megan stated that the students at Britannia in the Gay Straight Alliance hang out and talk about issues. Three of them have been asked to present about the Vancouver School Board’s recently passed Sexual Orientation and Gender Identities Policy. At the conference they will highlight what took place during the policy process and their feelings on the issues.

There are seven people who will be attending the conference including a PHD student who is doing her thesis on LGBTQ+ issues in schools. The group is fundraising in order to attend and are still in need of $1,900. They are requesting any assistance that the Board could provide. Some of the issues include: privacy, bathrooms, pronouns, and chosen names. There should be a non-gender bathroom and confidentiality. The students who wish to attend were very active during the forming of the Vancouver School Board policy. Consideration should be given to do a panel for Britannia when the students return for information purposes.

6. OLD BUSINESS

a) **Budget** – Attached to the Board package.

Natalie went through the budget forms and presented a report on Adult Arts programming and Youth Programming. Arts programming is planned to produce a 2015 deficit of $22,190 and Children’s Arts programs are expected to produce a $20,395 surplus in 2014.

Arts Programs - Natalie explained that we have received past grants of $40,000 and this year we received $26,000.

We have realigned some of the program categories and that has made the budget look different. This year we believe Funseekers will be consistent with previous years in the area of revenue.
