5. **Teacher’s Labour Negotiations**

Cynthia circulated a briefing update, thanks were expressed to Natalie Bailey, Sabine Tanasiuk and Lorraine Evans who is a shop steward and has been assisting with issues on site. It has been a challenge to provide up to date information. Strike action is limited to areas that do not impact all of our operations; with the exception of the ice rink which was closed May 26, June 6, and June 11. Loss of revenue was approximately $5,000. The rink closure is due to no engineer on site to check the ice rink plant.

Canucks Family Education Centre and Community Education programs were cancelled. Most non-ice programs in the rink have been relocated to other areas. We are working collaboratively with affected unions and members on site. Lord Nelson childcare has been moved to Grandview, loss of revenue yet to be determined. There were a number of child care spaces available as a result of the relocation of the Lord Nelson program.

6. **Carving Pavilion**

A briefing note was circulated which included information on budget, impacts and considerations. We have secured approximately $381,000 in funding. This morning the City of Vancouver has approved funding of $210,000 and use of city lands. There is still $113,000 to be secured. Total construction budget is $493,748.

Some Board members stated they have received feedback and questions on the location of the pavilion. The trees and moving the pavilion mitigated some of the concerns that Britannia heard. Vancouver School Board to provide maintenance costs for the pavilion. Phase I will start in July 2014, with project completion in September 2014.

We have posted information in the pool and the rink about the pavilion with the statement that if you have concerns contact Cynthia Low. We will also be posting information in the parking lot. Hopefully an information board will be up by next week in the parking lot. A suggestion to have comment sheets in the pool and the rink that be made available to the public.

The Advisory Committee, made up of representatives from the City, VSB and Britannia have been working on this project. Consultation has included aboriginal service providers, Native Health, Aboriginal Support Workers, UNYA, Vancouver School Board, Britannia Teen Centre, StreetFront, and Ray Cam Community Centre. The vision for programming is very important.

National Aboriginal Day – we will be celebrating Tuesday, June 24, 2014. The Library and Britannia were going to host events from 3:00 pm to 7:00 pm; with the job action that is a maybe. Sod turning for the pavilion may happen on Tuesday, June 24, 2014.

f) Learning Centre update

Learning Centre at Britannia may close at the end of December unless further funding is found. The staff union is strongly advocating against the loss in services.

Cynthia suggested that we bring information to the Board about actions that could be taken to stop the loss of the Learning Centre. The previous letter that was drafted and approved at a previous Board meeting will now go out. There is a campaign through the faculty union about ESL programs. In the learning centre there are postcards that people can send. There is a Facebook campaign. Cynthia will gather the information. The Learning Centre program is at nine centres and Britannia Learning Centre has about 35 hours of programming. The funding is about $800,000 to $900,000 with nine staff.

We will add to the previous drafted letter and we will send it out electronically for information.

We can also facilitate a meeting, people need to come together and talk about advocacy. We need to engage and get involved. An active student campaign should be considered. At the moment there is a long term campaign going on.

Oliver, Scott, Morna, expressed interest in having an Ad Hoc Committee to talk about the issues with the Learning Centre and they will update Ingrid as she may be interested in sitting on the Committee. They will set a timeline and an action date. Cynthia will email people who are not here this evening. We will try to meet in the next two weeks. The letter needs to be sent as soon as possible.

g) Youth Update

Cynthia stated there was a previous meeting held with representatives of youth agencies in the area; the agenda included systemic items that youth are facing. There has been groups meeting; - Broadway Youth table meet at Britannia and BackFast. There has not been much movement around youth emergency housing. Most of the social workers were not available after 4:30 pm, which is an issue in the evening, the Ministry has put some additional resources to assist with the issues facing youth. We are working with Vancouver Coastal Health. Vancouver Coastal Health and Vancouver School Board are in discussions. Vandalism has dropped on site. Evidence of drinking has dropped on the site. UNYA has a full time Alcohol and Drug counsellor on site. Not a lot of movement in systemic changes.

Very complex issues are facing us. Integration is needed with all agencies dealing with youth. The Mary Ellen Turpel-Lafond report shows a very dysfunctional system and a dysfunctional service model. It is difficult to see a means to actually measure how we are doing with the most vulnerable children and families. Britannia Strategic plan must have tools and a measurement plan in the area of youth. We need regular reports to the Board on the issues. We should find a better way to integrate and provide services. Also the use of measurement tools, to see what is happening; and what is needed and to provide these services.
There should be updating on youth issues at every meeting. We have a strategic draft of priority actions and that can come to the Board in September for directions. The City has established new positions; one is a Coordinator for women in the downtown eastside. Britannia has not experienced any reduction in services.

There is a model that is called Promise Neighbourhood to improve educational outcomes for students in distressed urban and rural neighborhoods in the United States. It is worth looking at the model. We can provide input to the Grandview Woodland Area Plan. A lot of documents are already compiled and a group could put a package together and bring back to the Board.

**MOTION:** TO FORM A YOUTH MATTERS WORKING COMMITTEE TO REPORT BACK TO THE BOARD OF DIRECTORS WITH OPTIONS AND RECOMMENDATIONS.
